

Body Worn Camera Docking Station: SDS-08

Product Introduction

SDS-08 Body Worn Camera Docking Station is an integrated platform for automated collection and unified management of the data (video, audio, photos) recorded by law enforcement recorders, which is suitable for data and equipment management needs of law enforcement units of various scales. Products can be widely used in public security, procuratorate, court, traffic police, urban management, customs, armed police, electric power, construction site and other law enforcement and safety supervision management units.

Features:

- * 15.6-inch high-definition touch screen
- * 4 pcs hard disk design, single disk supports up to 8T
- * Meet GA/T 947.3-2015 standard
- * 8 ports concurrent collection, the fastest collection speed can reach 5MB/s
- * Charging camera and data offload
- * Desktop clamshell design
- * Support remote upgrade of collect software

Technical Parameters

Type	8-ports Body Camera Docking Station (desktop type)
Motherboard	High-speed industrial grade motherboard
Screen	15.6-inch capacitive multi-touch, resolution 1920*1080
Collection Inter-face	8-channel Type-C and Mini USB interface
Operating System	Win7 system 64 bits
System Upgrade	Support management server remote upgrade
Storage	Standard 64G system solid state disk and 4T mechanical hard disk
Hard Disk	4 pcs 3.5-inch mechanical hard disk positions, a single disk supports up to 8T
Information Col-lection	Automatically collect the video, audio, photo and log data from legally accessed law enforcement recorders
Automatically Clear (optional)	After the collection is completed, the internal data of the law enforcement recorder that has been uploaded will be automatically cleared
Breakpoint Re-sume Data Browsing:	Support Support browsing the collected video, audio, photos, logs and other data
Data Retrieval	The collected data such as video, audio, photos and logs can be inquired according to one or more conditions such as product serial number, the police number, time, file type and key marked files of law enforcement recorder
Ethernet Port	Standard RJ45 plug
Standard	100/1000M adaptive full duplex
Input Power	220VAC 50/60Hz
Power	120W
Size	420*290*180mm (closed cover) 420*290*448mm (open cover)
Weight	13kg
